## 04 Production capacity

**Glost Firing: 60 Million/ year**

**Isostatic, 9 lines:**  
About 12,000  
pcs/day

**Ram Press,  
9 machines**  
About 20,000  
pcs/day

**Jigging  
Machines**  
about 50,000 pcs/day

**Casting  
machines**  
About 100,000  
pcs/day

## Technical and RD

### Technical and Management ( 50 persons )

Technical research and  
manage: 13 persens

Chemical and Physical  
Test Center: 3 persons

Quality control, green body, blankware,  
decorated and products: 34 persons

### Design and Develop Team (57 persons)

Designer: 7 persons

Designing platform: 15+ persons

R&D: 35 persons

## Product Catogories

- ◎ **Hard porcelain**
- ◎ **Durable china (Buffalo Body)**
- ◎ **High alumina porcelain**
- ◎ **Vitrified stoneware**
- ◎ **Terra cotta**

## High Alumina Bone

1. **High strength,durable.  
Suitable for Hotels and  
Restaurants.**
2. **Good resistance to acid  
and alkali. Dishwasher  
safe.**
3. **Good thermal shock  
resistance, microwave  
and oven safe.**

## Vitrified Stoneware

1. High strength,durable.
2. Good resistance to acid and alkali.  
Dishwasher safe.
3. Good thermal shock resistance,  
microwave and oven safe.
4. Suitable for different color glaze and  
re-active glaze.

## Vitrified Stoneware

1. High strength,durable,low water absorption rate.
2. For liquors and seasonings,toilet requisites

## Hard Porcelain

1. Super white, glost firing temperature 1350-1360°C.
2. High strength .Mostly used for hotels & restaurants, airlines, cruise ships, catering, décor plates etc.
3. Good resistance to acid and alkali. Microwave and dishwasher safe.
4. Good thermal shock resistance.
5. Passed American California Standard(PP65) and FDA Standard. Ensure food safety.

## Durable Body(Buffalo Body)

**The series of products were specially developed for Oneida replacing Buffalo products.**

**Oneida Transferred all the production of Buffalo to Kinway Ceramics since 2003.**

- 1. High strength,durable. Suitable for Restaurants,cafes etc.**
- 2. Good resistance to acid and alkali. Dishwasher safe.**
- 3. Good thermal shock resistance, microwave and oven safe.**

## Bake ware

1. **High strength,durable. Suitable for Restaurants,cafes etc.**
2. **Good resistance to acid and alkali. Dishwasher safe.**
3. **Good thermal shock resistance, microwave and oven safe.**

# KINWAY DESIGN 锦晖设计

超预期·共发展·创未来
