

CHONGQING FORESEEN OPTICS INSTRUMENT CO.,LTD

重庆林达光学仪器有限公司

FORESEEN WORLD FORESEEN YOU

COMPANY PROFILE | 企业简介

Foreseen Optics Instrument Co., Ltd is an R&D factory with 30 years of experience in designing and manufacturing optical instruments. We have received the ISO9001 international quality system certification. Currently, we have production bases in Ningbo, Chongqing, and Kunming and R&D centers in both Kunming and Shenzhen. Our company has specialized production lines for over 10 types of products including binoculars, telescopes, microscopes, night vision devices, thermal imaging devices, hunting cameras, rangefinders, and more.

The maximum annual production capacity totals over 1.1 million units. So far, Foreseen has delivered over 5 million units of diverse optical instruments as OBM and OEM for more than 300 global brands. Each of our products undergoes rigorous machine performance tests, detailed manual inspections, and is also subject to supervision by third-party professional inspectors.

We have established our own foreign trade service center in Chongqing, staffed with English, German, Japanese, and Russian-speaking professionals who understand customers' brand pursuits and reflect brand characteristics and social responsibilities into product design and manufacturing.

Our products can be manufactured using ordinary materials, as well as environmentally friendly recycled materials such as PCR and OBP. We provide various eco-friendly material product solutions for well-known global brands, and look forward to working with more excellent brands to provide high-quality, eco-friendly and competitive optical instruments for the whole world.

CHRONOLOGY | 年介表

Achieve manufacturing process innovations for environmentally friendly materials and recycled materials such as PCR and OBP.

Establish the Foreseen Outdoor Division and the Foreseen Military Division.

Launch our own brand FORESEEN, FORESEEN WORLD, FORESEEN YOU!

Established the design department to provide a variety of customized services.

Established the E-Commerce Department and began to provide one-stop services for e-commerce customers such as Amazon.

The annual production capacity reached 200,000, and the annual export volume reached 150,000.
